COMMUNICATION FOR CLARIFICATION OF APPLICATION NUMBER

Commissioner For Patents
P.O. Box 1450
Alexandria, Virginia 22313-1450

This letter is in regards to the use of two different application numbers which were assigned to the same application. Specifically, the application entitled "A Cardio Myopeptidin, the Production and the Use Thereof" was submitted to the PCT/PTO on February 2, 2006. The return receipt postcard was received stamped with the application number 10/567,286. On March 21, 2006, we submitted a Petition for Revival of an International Application for Patent Designated the U.S. Abandoned Unintentionally Under 37 CFR 1.137(b), as the previously filed application was inadvertently filed after the national filing due date.. The return receipt postcard for the petition was stamped by the PCT/PTO on March 23, 2006 with application number 10/573,197, a new application number. On June 15, 2006 the Petition to Revive was Granted to application number 10/567,286, the first assigned application number.

Please clarify which application number is assigned to the above-identified application.

Respectfully submitted,

Dated: August 9, 2006
